## PAINTABLE ACRYLIC SEALANT

TECHNICAL DATA SHEET UPDATED 18/02/2026

### Product Information

One-component acrylic-based sealant, ready to use, paintable, available in white and custom colors (on request). Characterized by suction effect, strong initial tack and high elasticity, it is suitable for sealing and filling applications in construction and DIY.

- + Elongation up to 250%
- + Solvent-free
- + Low shrinkage
- + Low VOC content
- + Does not require nails or mechanical support
- + Strong suction effect
- + Elastic
- + Paintable

### Recommended Uses

- Sealing cracks in walls, plasterboard and tiles
- Joints between plasterboard and metal supports
- Fixing of panels, moldings and rosettes in polystyrene or polyurethane
- General DIY applications

### Coverage

Up to 15 linear meters per cartridge

200–300 g/m<sup>2</sup> if applied with spatula

### Application Instructions

#### Substrate Preparation

All surfaces must be dry, absorbent, sound, and free from dust, paint, or oil residues.

Cracks should be filled with our ultra-light filler GLASTER

#### Product Preparation

Ready-to-use product.

For cartridges: cut the seal and apply using a professional caulking gun.

#### Product Application

Apply the adhesive to ensure full contact between the surfaces.

Press firmly to ensure uniform wetting of the entire bonding area.

#### Cleaning

Clean tools with water while the product is still fresh.

Once cured, residues must be removed mechanically.

|                | Application temperature | +10 °C to +35 °C                    |
|                | Waiting time            | None                                |
|                | Open time               | approx. 20 minutes                  |
|                | Final curing time       | 24–36 hours                         |

## Warnings

- Do not apply at temperatures below +3 °C
- Recommended application between +10 °C and +35 °C

## Storage

The product is guaranteed in its original packaging, under standard storage conditions (+5 °C to +35 °C / +41 °F to +95 °F), for 24 months from the production date. It is important to store the product in a dry place, away from heat sources and direct sunlight.

## Final note

Keep out of reach of children and pets. Dispose of waste in designated construction material containers.  
The information in this technical sheet is based on our extensive experience but is indicative. Users must assess product suitability for their specific use and are responsible for its application.
